-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1755

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/25/06 has been entered.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 29-32 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a scattering of 0.225 to 0.245, as depicted in figure 4, does not reasonably provide enablement for scattering of 0.225 or more (no upper limit). The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims.

Claims 20-22 and 31-32 are rejected under 35 U.S.C. 102(b) as anticipated by The article titled "Brief Profiles of Investment projects for China's Agenda 21", dated 5/21/02.

This article teaches Chinese kaolin from the Shanxi province (same province as the claimed Chinese kaolin) having a size of less than 2 microns and a brightness of more than 90%.

Art Unit: 1755

Since this kaolin is from the same province as the claimed kaolin, the limitations defined on lines 2-4 of claims 20-22 (carbon content, iron content and propensity to release alumina) are inherent. With respect to the oil absorption and the scattering, since the kaolin material is the same (from the same province and has the same size), it is the examiners position that the above characteristics are inherent in the kaolin material absent clear evidence to the contrary. In view of this, the above claims are anticipated by this article.

Claims 1-13 and 23-28 are allowable over the prior art of record because said art fails to teach the claimed method.

Claims 29 and 30 would be allowable if amended to overcome the 112 rejection above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Marcheschi whose telephone number is (571) 272-1374. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (571) 272-1233. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
